Experience

1992 - 1994

● **Poznań University of Life Sciences, Poznań, Poland**

Research/technical staff

Employed in Sheep Breeding Department as a research-technical staff, also involved in teaching students of "sheep breeding and production".

1994 - 1995

● **Private Farm, Gądków Mały, Poland**

Manager

Employed as a farm manager and supervised land cultivation and horse breeding.

1996-05 - 1997-07

● **Pek-Pol Central Soya Bieganów, Ltd Company in Bieganów, Poland**

Nursery and Finisher Manager

Employed at Farrow to Finish Commercial Pig Farm (2200 sows) as a nursery (6000 feeder pigs) and finisher (14000 tops) manager.

During this time I took part in eradication of dysentery at the farm with success.

1997-08 - 2001

● **Murphy Family Farms Inc., North Carolina, USA**

Manager Trainee to Sow Farm Assistant Manager

- Started at Edge NPD Sow Farm (1200 sows, farrow to finish, Daughter Nucleus) as a manager trainee; worked at breeding, farrowing, nursery and finisher departments; achieved farrowing technician certification, promoted to Farrowing Head of Department position; strongly improved knowledge about gilt finisher;

- 09.1999, promoted to Assistant Manager position at Fox Ridge Sow Farm (3800 sows, PIC Nucleus); achieved very good knowledge about PIC genetic lines; achieved breeding technician certification; responsibility for most paperwork; certifying technicians; involved in CQI Team as a team leader.

- Since 2001, after consolidation, have worked for Murphy-Browns LLC Company, North Carolina, USA (at the same farm and position).

2001 - 2005-05

● **Murphy - Browns LLC Company, North Carolina, USA**

Sow Farm Manager

07.2002 have been promoted to Manager position at Frenches Creek Sow Farm (2400 sows, SPG Daughter Nucleus). Since 2003 farm achieved 5 times "Farm of the Quarter"- award in Laurinburg Division and 4 times "SPG Top Producer" award for multiplication production achieving 28 PMSY.

2005-05 - 2009-07

● **Murphy Family Ventures Inc, Missouri, USA**

Multiplication Manager

Responsible for Pure SPG LW production and genetic improvement on 2500 pure LW sow head farm - worked on improving the sow indexes through single sire mating, evaluating litter merits and boar indexing, working with geneticist on the on test and off test of gilts, transportation of breeding stock - 1500 heads per week. I have been responsible for gilt nursery and gilt finishers (12000 feeders and 18000 replacement gilts), managing budgets, managing PPO cost, safety, managing truck wash and gilt delivery schedule within the west operation. Responsible for 6 managers.

2009-10 - present

● **Agri Plus, Murphy Brown Group, Poland**

Multiplication Production Coordinator

Responsible for introduction of Danbred genetic as well monitoring of genetic plans. The program of introduction of Danbred genetic includes monitoring of GGP and GP population as well as selection of animal, monitoring of the parity structure and monitoring of key production indicators. I am responsible for delivery of the outlined budgets, controlling cost and maximizing income.

I am accountable for 6000 sows as far as production and 20000 as far as monitoring genetic plans. I stay in close contact with Porc-ex, Danbred International company, which delivers Danbred genetic. I am responsible for pure bred boar stud of Yorkshire and Landrace semen production. My best farm achieved production of 32PMSY - based on the 9 week old feeders pig production.

Education

- **Poznań University of Life Sciences, Poznań, Poland**

Master's Degree in Animal Science (emphasis in Sheep Breeding)

1995 - my thesis won the 1st award in the field of Sheep Breeding in National Contest of Animal Breeding

Master's Degree Thesis (organized by Polish Breeding Society).

- Ability know-how in the usage of Microsoft Word, Excel and Powerpoint ●●●●●
- B (car), B+E (car up to 3.5 tons with heavy trailer), T (tractor) driver's licence in Poland ●●●●●
- Knowledge and experience in horse, sheep and goat breeding. ●●●●●
- Training, coaching and managing people in swine production. Completed Effective Manger Course in USA ●●●●●

Languages

- English both in writing and speaking ●●●●●
Fluently

Interests

- My free time I spend with my family on the family operated farm specializing in breeding of American Quarter Horses, Pure Breed sheep and goats. I am keen on wild west and western saddles building and renovation. I spend lots of time reading articles and publications about animal breeding specially technical innovations in swine, horse , sheep and goats production.
