

## Production manager for 6,000 sow farm in Xiangyang China

Danish Farm Design is searching for a highly skilled pig production manager who can assist our Danish farm manager in China. The farm is a nucleus/multiplier farm with sows and weaned pigs up till 30 kg as well as two sites for gilts and finishers developed by Danish Farm Concept – see [www.danishfarmconcept.com](http://www.danishfarmconcept.com). At present the farm comprises 800 DanBred sows which is under expansion to 6,000 sows.

### The job:

You will be employed directly by Danish Farm Design and posted to the project as soon as possible – The employment is expected to last for about two years. You will work as an instructor in farm management together with our current pig farm manager and the local Chinese team.

### Your tasks are to:

- Organize working procedures and SOPs
- Train the local staff in farm management routines – hands on training.
- Reach production targets for the farm
- Advice and guide the local management in monitoring production
- Report to DFD's management support team and client.

### You:

- Have several years of experience as a leader in modern pig production
- Speak and write English fluently
- Are a team-builder and leader
- Are patient and diplomatic
- Are clear and precise in your communication
- Can adapt to a foreign culture and company

### We can offer:

- An attractive job with back up and support from our team in Denmark
- A well-established management solution with support from experienced experts
- Regular support visits by vets, nutritionists and Danish technology suppliers
- Online support from our office in Denmark
- All needed communication tools.
- International health insurance
- An attractive salary packages

Please contact Henrik Christiansen or Bjarne Kornbek Pedersen or for more information about the position.
